

Dreams come true – 2015

Josef Haid

Dreams come true

I had a dream, that took so long, that took so long to come true
For many years, it wasn't clear to me, where this would lead to, after all
So I followed my heart, that voice inside of me, I knew one day I'll find the clue.

Keep on trying, keep on believing, just listen to your heart
Keep on trying, keep on believing, it never works right from the start
Keep on trying, keep on believing, one day your dreams come true

Now looking back, I had an amazing time, exploring something new in me
Many things that I had to learn, some I never thought I could ever do
And in between, all those crazy times, when nothing worked I told myself

Keep on trying, keep on believing, just listen to your heart
Keep on trying, keep on believing, it never works right from the start
Keep on trying, keep on believing, one day your dreams come true.

Finally, I've made it here, with a full CD of my songs
I'm going to play with my band tonight, the best guys around just hear their sound
I wanna thank you all, my wife my family and friends, letting my dreams come true once
again

Keep on trying, keep on believing, just listen to your heart
Keep on trying, keep on believing, it never works right from the start
Keep on trying, keep on believing, one day your dreams come true.
Keep on trying, keep on believing, one day your dreams will come true.
